ABOUT ME

I am a self thought dedicated and efficient MERN stack developer having more than 6 months of professional exposure in JavaScript technologies such as React JS, Backbone JS, MongoDB, Express.js and Node JS rather than 2 years experiance in frontend in HTML and CSS. I can adapt onto any technology rapidly making myself flexible upon any tech stack. I am a passionate, diligent person who wants to learn continuously.

EXPERIENCE

MERN Stack Developer
Brototype 2021 - Still

I am working as a MERN Stack developer at Brototype, Kochi for the last 6 months. During my tenure, I have completed the below projects.

MERN STACK PROJECTS:

ShoperCart is an Ecommerce web app, which I developed using mern stack that is scalable and future proof. I have used React for frontend & redux for state management, Node JS & Express for backend with MongoDB as database.

Project Features:

- User & Password Authentication
- OTP Login Authentication
- Search, Filter & Pagination
- Cart, Receiving Payment & Processing the Order
- User's Order & Review
- Razorpay integration
- Products & Orders Management by Admin
- Error Handling

React FRONTEND PROJECTS:

- Netflix clone by fetching the data from TMDB by using React.
- Amazon clone website using React and firebase.
- OLX-clone by using react

JavaScript PROJECTS:

- Bank application with register, login and transfer functionalities using browser local storage.
- Weather Data application using Weather API.
- Covid Data lsiting application using COVID API

Web Designer
Datamatix Tecchnologies, Dubai - 2019 - 2021

- Converting Photoshop layout of websites and applications into .NET and PHP templates.
- Update the existing websites and applications frontend into new user friendly frontend with the latest market trends.
- Optimizing the perfomance of websites and applications

EDUCATION BACKGROUND:

- BA ENGLISH
